

Certified Associate in Project Management (CAPM)[®]

The entry-level certification for young professionals

Training goals

- Optimal preparation for the entry-level certification (CAPM[®]) of the World Professional Association for Project Management (PMI).[®]
- With this training, you will learn the international methods and techniques of the various disciplines of project management.
- Our certified trainers and coaches will accompany you in your exam preparation.

Target group

- Young professionals, students and anyone interested with less than 3 years of project experience with the aim of obtaining one of the most prestigious international project management qualifications.

Requirements

- High school diploma or intermediate level of education.

AND

- 23 contact hours in project management training, which you will demonstrate with this seminar.

Our Premium Learning Concept

- Your path to CAPM[®] begins with our live online training, in which in-depth exam knowledge and theoretical basics are intensively developed. Our trainings are characterized by an optimal combination of knowledge transfer and practical application.
- You will be trained with high-quality course content developed by RMC Learning Solutions.
- After the training, the participants learn together in moderated one-hour study groups every two weeks. There, participants can discuss questions and exchange information on the exam questions. In addition, a PMI-certified[®] tutor will answer participants' questions and provide additional learning materials.
- We also offer an online exam simulator with more than 850 exam questions.
